Eaton gets IT – in every environment
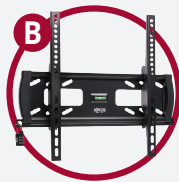

Security solutions

Reinforce your security and other IT infrastructure with reliable power and connectivity solutions.

A. Wall-mount racks
Efficiently store IT hardware and rack-mount AV equipment. DVR lockboxes protect against damage, tampering or theft.

B. Display mounts
Mount flat-screen displays and tablets on a wall. Floor-stand and desktop tablet mounts are also available.
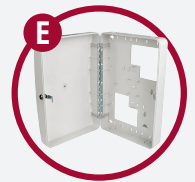

C. Surge protectors
Safeguard electronics against damaging surges, spikes and line noise.*

D. UPS systems
Provide battery backup to equipment during power outages to prevent downtime and protect data.

E. Wi-Fi enclosures
Keep wireless access points discreet and protected against theft, damage and tampering.

F. Charging stations
Charge, secure and organize up to 48 laptops and tablets in a mobile cart or stationary cabinet.*

G. PoE solutions
Power over Ethernet switches, midspans and cabling power network devices with more flexibility and fewer costs than standard electrical runs.

H. Extenders
Extend an AV or USB signal from the back office to a front office, customer space or production area. PoE models available.

I. HDMI cabling
Connect high-definition video and audio sources to HD TVs and other displays.*

J. Ethernet cabling
Connect network equipment with up to 10G speeds and shielding, slim design and snagless connector options.*

*To promote healthier environments, Safe-IT™ antimicrobial and antibacterial options are available for select models.

Powering Business Worldwide

Tripp Lite is now part of Eaton
With the acquisition of Tripp Lite, Eaton has transformed its distributed IT infrastructure and connectivity product portfolio. Eaton's Tripp Lite series products provide convenient, reliable and cost-efficient IT solutions that integrate seamlessly with Eaton's industry-leading enterprise power management products and services.

EAT•N®
TRIPP LITE SERIES

Customers agree: our selection and service are second to none!

A perfect fit and a rock-solid product

"This media converter was the perfect fit for our scenario. We needed a device that would fit in a small space and fit nicely into place. The device is built solidly."

Dan
Indianapolis, IN

Surge protection is 100% reliable

"We've used surge protectors from Tripp Lite by Eaton in our offices for years without fault, and install them for our clients' home theaters, music systems, security systems and everything low-voltage. Surge protection from Tripp Lite by Eaton is 100% reliable."

American Entertainment Systems
New Richmond, OH

Does exactly what I needed it to do!

"Product provides the perfect solution for extending an HDMI signal to 4 different locations. Have had no issues with any products from Tripp Lite by Eaton."

Dollar Bill
Scarsdale, NY

Quite happy with the product

"I was looking specifically for a surge protector with USB power. I needed USB power for two cameras. I used both USB ports to provide power to the two cameras for a 3-hour event. I am quite happy with the product."

Andrew
Verified Buyer

My go-to switch for security system installs

"The unmanaged switch with PoE+ is my go-to switch for home video security system installs with less than 8 cameras. Love that it's rack-mount, too!"

Bryan
Verified Buyer

Very satisfied with our partnership

"We have been working successfully with Eaton for over 12 years and are very satisfied with our partnership."
