If I need a power strip, it will be a Tripp Lite

"I own two of this model power strip. I have used these strips since I was in the army. I have never had one fail on me."

Great PDU

"We got 5 of these to replace our old PDUs. We have had zero problems with these and the fact that they 'lock' into the outlet is very reassuring; we no longer have to worry about accidentally unplugging half of the rack."
